YOUR TRUSTED ELEVATOR PARTNER FOR COMMERCIAL BUILDINGS

With over 100 years of experience in the elevator and escalator business, KONE is your trusted partner dedicated to ensuring smooth People Flow® in your building. We revolutionized the industry in 1996 with the world’s first machine room-less elevator – the KONE MonoSpace® – and the energy efficient KONE EcoDisc® hoisting machine. Our proven track record, including half a million KONE EcoDisc installations worldwide, speaks for itself.

We have listened to our customers and carefully analyzed each and every part of our industry-leading elevator solution, and renewed it from top to bottom. Everything we did best, we've made even better.

A STRONG TRACK RECORD

• 9 out of 10 KONE customers recommended us as a partner
• More than 100 years of experience in the elevator industry
• Award winners: MicroSpace®, EcoDisc®
• One out of every million elevators and escalators in service
• Over 55,000 sales and service professionals worldwide

EXCELLENT ECO-EFFICIENCY

THAT CUTS YOUR BUILDING’S CARBON FOOTPRINT

At KONE we have always been renowned for our revolutionary eco-efficient technology. KONE has constantly improved the energy efficiency of its elevators – up to 70% since 2008.

Our reference elevators were the first in the industry to receive an A-class energy rating according to the VDI 4707 guideline. Installing an efficient KONE elevator solution can also help in achieving green building accreditations such as LEED or BREEAM certification.

At KONE we have always been renowned for our revolutionary eco-efficient technology.

EXCELLENT ECO-EFFICIENCY

THAT CUTS YOUR BUILDING’S CARBON FOOTPRINT

At KONE we have always been renowned for our revolutionary eco-efficient technology. KONE has constantly improved the energy efficiency of its elevators – up to 70% since 2008.

Our reference elevators were the first in the industry to receive an A-class energy rating according to the VDI 4707 guideline. Installing an efficient KONE elevator solution can also help in achieving green building accreditations such as LEED or BREEAM certification.

More efficient hoisting machinery

The completely renewed KONE EcoDisc® lifting motor and highly efficient drive system delivers even better energy-efficiency helping to reduce both operating costs and your building’s carbon footprint.

Eco-efficient regenerative drive

Our latest regenerative drive recycles energy for immediate reuse within the building and cuts consumption by up to 14%.

Long-lasting LED lighting

As well as being up to 80% more efficient than halogen lighting, LED lighting also lasts up to 10 times longer.

More advanced standby solutions

Upgraded standby solutions power down the equipment when it is not in use, providing substantial energy savings.

SMOOTH RIDE-COMFORT FOR THE BEST POSSIBLE PASSENGER EXPERIENCE

• Quality guaranteed through rigorous front-to-back testing of all components before handover – a service unique in the industry
• Quiet and smooth operation, and accurate leveling enabled by:
  • The industry’s most flexible and versatile hoisting machine, brakes, and centralized hoisting
  • An improved car structure and sound-isolated guide shoes

AWARD-WINNING DESIGN THAT HELPS YOUR BUILDING STAND OUT

• Easy selection of car interiors from a collection of functional and visually appealing designs
• Easy selection of car interiors from a collection of functional and visually appealing designs
• Quality guaranteed through ride-comfort testing
• The industry’s most flexible and versatile hoisting machine, brakes, and centralized hoisting
• The most innovative materials and lighting solutions

3 REASONS TO CHOOSE KONE

1 EXCELLENT ECO-EFFICIENCY THAT CUTS THE CARBON FOOTPRINT OF YOUR BUILDING

• Constant improvement of elevator energy efficiency with the KONE EcoDisc® hoisting machine, and other mechanical structures now requires even less height and width in the shaft.
• Savings potential to KONE of all elevators before handover – a service unique in the industry
• A-class energy classification to receive an A-class energy rating according to the VDI 4707 guideline.

2 SMOOTH RIDE-COMFORT FOR THE BEST POSSIBLE PASSENGER EXPERIENCE

• Constant improvement of elevator energy efficiency with the KONE EcoDisc® hoisting machine, and other mechanical structures now requires even less height and width in the shaft.
• Savings potential to KONE of all elevators before handover – a service unique in the industry
• A-class energy classification to receive an A-class energy rating according to the VDI 4707 guideline.

3 AWARD-WINNING DESIGN THAT HELPS YOUR BUILDING STAND OUT

• Easy selection of car interiors from a collection of functional and visually appealing designs
• Easy selection of car interiors from a collection of functional and visually appealing designs
• Quality guaranteed through ride-comfort testing
• The industry’s most flexible and versatile hoisting machine, brakes, and centralized hoisting
• The most innovative materials and lighting solutions

KONE ELEVATOR ENERGY CONSUMPTION

The calculation is based on an elevator speed of 1 m/s, a load of 1400 kg, 1200 starts/year, a travel height of 14 floors.

EVEN MORE SAVINGS

• Long-lasting LED lighting: As well as being up to 80% more efficient than halogen lighting, LED lighting also lasts up to 10 times longer.
• Eco-efficient regenerative drive: Our latest regenerative drive recycles energy for immediate reuse within the building and cuts consumption by up to 14%.
With the KONE RemoteCall™ application, passengers can see how many floors are served, and the elevator movement for the next stop. KONE’s Destination Control System (DCS) incorporates a traffic management level, which measures noise and vibration, improving comfort for visitors and tenants in the surrounding areas.

KONE INFORMATION – EFFECTIVE COMMUNICATION AND GUIDANCE

KONE information solutions are a convenient way to share multimedia and web-based content, as well as safety and building-related information, in elevator cars and elsewhere in the building.

KONE ACCESS – IMPROVED PEOPLE FLOW AND SECURITY

KONE access solutions offer a fully scalable system for managing smart and visitor access throughout a building. They combine the latest software and hardware for managing access profiles and controlling door, turnstile, and elevator access. The system can be integrated with KONE’s destination control system.

In addition to providing its own access solution, KONE can integrate any third-party access solution with its elevator system, offering you complete freedom of choice.

KONE DESTINATION – AN EFFORTLESS ELEVATOR EXPERIENCE

KONE DESTINATION – AN EFFORTLESS ELEVATOR EXPERIENCE

KONE PEOPLE FLOW INTELLIGENCE

KONE’s access solutions ensure that the elevator is used efficiently, enhancing accessibility and passenger comfort. Journey times, minimized stops, and reduced waiting times help to increase elevator handling capacity, reduce discomfort, and provide a more comfortable experience.

Unlike conventional elevator control systems, which only report the desired travel direction, the KONE Destination Control System (DCS) incorporates information about desired destination floors and the number of waiting passengers. This information helps to increase elevator handling capacity, reduce waiting times, minimize intermediate stops, as well as enhance accessibility and passenger comfort.

ENHANCED USER EXPERIENCE, PERFORMANCE AND SECURITY

SMOOTH RIDE COMFORT

For the best possible passenger experience, every aspect of KONE MonoSpace® is designed to add real value to your building and maximize comfort, safety, and convenience for the passengers. The renewed KONE EcoDisc® hoisting machine is complemented by a wide range of other upgrades that are designed to deliver industry-leading ride comfort year after year.

1. Renewed machinery and brakes

- The new, highly reliable motor control system further improves ride comfort, with smooth acceleration and deceleration, and highly accurate car leveling.
- The renewed braking system ensures a comfortable, quiet ride, while also minimizing noise transfer to the surrounding areas.
- The new brake load functionality automatically checks brake conditions daily, contributing to further improve safety and reliability.

2. Redesigned hoisting system for minimized vibration and noise

- Centralized, low-friction hoisting rail and noise isolation for a more comfortable ride.
- New isolated guide shoes, constructed using laser-guided sliding material, further help to reduce noise.

3. Improved car structure for a more comfortable ride

- The rigid structure and noise isolation of the renewed elevator car ensure a smooth and comfortable ride.
- New isolated guide shoes, constructed using laser-guided sliding material, further help to reduce noise.

KONE MONITORING – EASY EQUIPMENT MANAGEMENT AND CONFIGURATION

KONE monitoring solutions enable the real-time inspection of elevator and escalator operation across multiple locations via a single interface. As well as providing on overview of equipment status and performance, they enable remote configuration and can be easily integrated with existing facility management systems.

KONE provides a comprehensive ride comfort testing service as standard for all its elevator installations.

Your elevator will not be handed over for use before it passes this test, which ensures optimal comfort levels inside the car.

This thorough quality and reliability testing prior to handover helps to further reduce the need for unplanned maintenance calls.
Our wide range of accessories is designed to give passengers a great elevator experience with every trip. As well as adding the finishing touches to your elevator’s interior, they make using the elevator even easier and more convenient for passengers.

KONE DESIGN COLLECTION

When you’re designing a building that people will call home, the elevator you choose should complement your building’s look and feel, create a lasting impression on passengers, and make your building attractive to potential residents. Your elevator also needs to be functional – it should be accessible for all, well lit, user-friendly, easy to clean, and resistant to wear and tear.

The new KONE Design Collection – created by our award-winning design team – offers you a versatile set of contemporary, themed interiors to choose from. You can also create your own unique look and feel by mixing and matching our wide range of materials and accessories.

For more design inspiration take a look at the complete KONE Design Collection and use the KONE Car Designer tool together with a KONE sales representative.

WHAT SETS KONE DESIGN APART

1. Easy selection of car interiors
   A collection of 52 functional and visually appealing designs created by KONE’s award-winning design professionals.

2. The most flexible and versatile offering
   100 different materials and accessories that can be combined freely and used in all elevator products, for both new buildings and modernization projects.

3. The most innovative materials
   The combination of unique textured, patterned, and 3D-effect wall materials with novel lighting solutions creates a stunning visual effect.

4. Award-winning design
   KONE’s elevator and signalization design concepts have received both Red Dot and Good Design awards.

ACCESSORIES DESIGNED TO IMPROVE USER EXPERIENCE IN COMMERCIAL BUILDINGS

Our wide range of accessories is designed to give passengers a great elevator experience with every trip. As well as adding the finishing touches to your elevator’s interior, they make using the elevator even easier and more convenient for passengers.

1. KONE Design signalization – our cutting-edge signalization options are available in a wide variety of colors and patterns, making it easy to reflect your overall elevator design.

2. Car operating panels can be customized with your choice of graphics and tenant directory information.

3. KONE InfoScreen makes it easy to communicate important building information to tenants and visitors.
SUPPORTING YOU EVERY STEP OF THE WAY

Choose a partner with over a century of experience in delivering pioneering elevator solutions. Get expert advice from professionals and enjoy the peace of mind that comes with comprehensive support. KONE is with you every step of the way – from planning and design through installation and maintenance to modernization – for the entire life cycle of your building.

1. **Expert design and planning services**
   - Expert planning advice helps you specify the optimal elevator solution for your building requirements.
   - Easy-to-use online design tools save you time and effort during the design process by allowing you to create CAD drawings, 3D BIM models, and custom car interiors.
   - Energy consumption calculations for every individual elevator solution.

2. **Safe and efficient installation**
   - Highly efficient scaffoldless installation methods and a simple building interface result in considerable cost savings for our customers and minimize disruptions to other construction work.
   - Strict quality criteria for each phase of installation ensuring “first time right every time”.
   - Continuous training, site audits, installation safety passports, and proven methods ensure maximum site safety.
   - Eco-efficient installation processes maximize waste recycling and minimize the use of solvents.

3. **Quality assurance at handover and professional maintenance**
   - We are the only company to provide in-depth ride quality testing of each elevator before handover.
   - Our elevators are known for their reliability, and have an average availability rate of 99%.
   - Our global spares center stocks over 150,000 parts and offers 24-hour delivery for the most commonly requested parts.
   - Preventive KONE Care™ maintenance solutions – including a comprehensive online service-reporting system – make it easier to monitor and budget for elevators, escalators and doors maintenance.

WORLD-CLASS DESIGN TOOLS

Take advantage of our easy-to-use tools for planning your elevators and designing a car that will fit your building’s look and feel perfectly.

KONE Elevator Toolbox – now including BIM models
- With the KONE Elevator Toolbox you can create a detailed elevator specification online and create customized CAD drawings for preliminary planning.
- KONE Building Information Modeling (BIM) models make it easier and quicker for architects to prepare digital elevator designs. Included in the elevator toolbox, these models are compatible with most common project documentation systems and include the latest KONE elevator specifications. Once your elevator design is ready, you can send the specifications direct to a KONE sales representative ready for tendering or ordering.

KONE Car Designer – now including new designs, materials, and accessories
- Create your own virtual elevator interior design online or together with a KONE sales representative with the KONE Car Designer.
- Choose a theme from the KONE Design Collection, or mix and match your choice of materials, lighting, and accessories to create a totally new look.
- Save your design as a printable PDF and send a link to a colleague or to a KONE sales representative.

When you choose KONE, you choose peace of mind. Safety is the starting point for every KONE solution, and all our solutions include the latest innovations in safety technology as standard.

**NO COMPROMISES ON SAFETY**

When you choose KONE, you choose peace of mind. Safety is the starting point for every KONE solution, and all our solutions include the latest innovations in safety technology as standard.

Our KONE MonoSpace® elevator solution includes a wide range of features that are designed to both maximize safety for passengers and make it easy for you to inspect the condition of your equipment to ensure that it operates safely at all times.

- Daily automatic brake testing
- Proven rope technology that is easy to inspect
- A curtain of light to ensure safe entry and exit
- Accurate landing that eliminates risk of tripping
- A door opening button for door control when the elevator is stopped
- A 2-way communication system for instant, 24/7 contact with KONE Customer Care Center in case of emergency

KONE also demonstrates its strong commitment to safety by working closely with the people who rely on our products to provide a safe, comfortable experience in their daily lives. Our safety events and communication material give people the opportunity to familiarize themselves with how elevators operate and how to use an elevator safely.
KONE provides innovative and eco-efficient solutions for elevators, escalators, automatic building doors and the systems that integrate them with today's intelligent buildings.

We support our customers every step of the way: from design, manufacturing and installation to maintenance and modernization. KONE is a global leader in managing the smooth flow of people and goods throughout buildings.

This makes us a reliable partner throughout the life cycle of buildings. We are fast, flexible, and we have a well-deserved reputation as a technology leader, with such innovations as KONE MonoSpace®, KONE NanoSpace™ and KONE UltraRope®.

KONE employs over 55,000 dedicated experts to serve you globally and locally.
